

Assignment-2

1. Create a script which can add text “This text has been added by custom script” to /tmp.1.txt

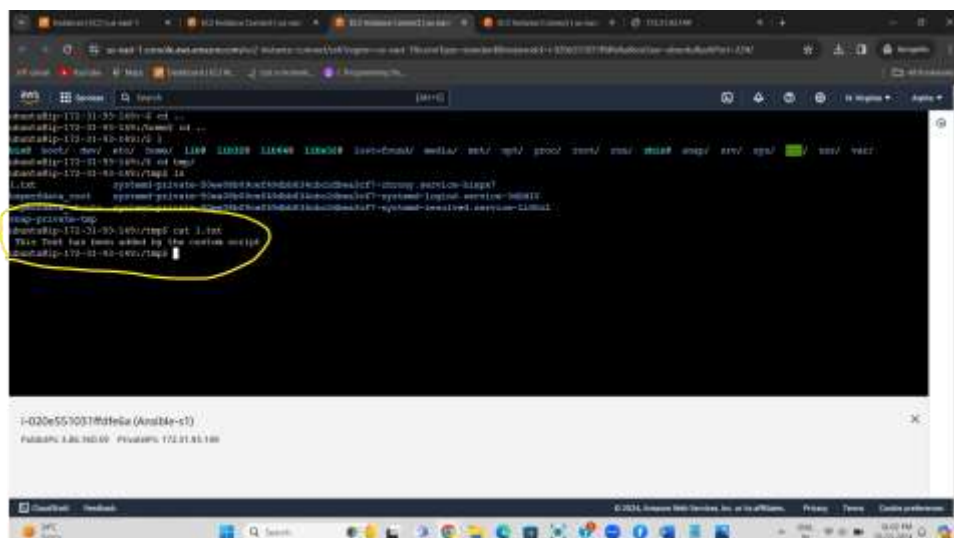

```
#!/bin/bash
# script1.yml
# This script is used to add text to a file.
# It takes the file path as an argument.
# If no argument is provided, it defaults to /tmp.1.txt.
# It appends the text 'This text has been added by custom script' to the file.

# Get the file path
file_path="/tmp.1.txt"

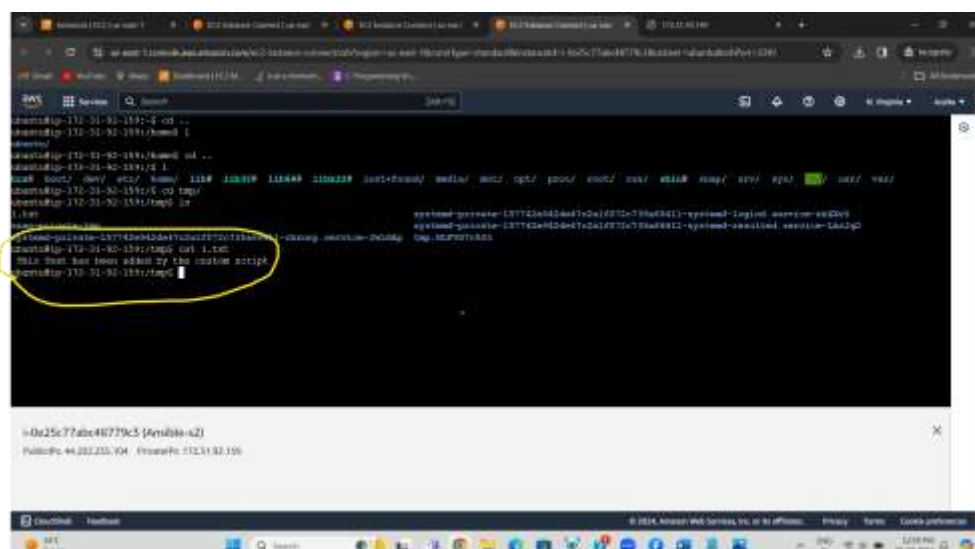

# Check if the file exists
if [ ! -f "$file_path" ]; then
    echo "File $file_path does not exist. Creating it."
    touch "$file_path"
fi

# Append the text to the file
echo "This text has been added by custom script" >> "$file_path"
```

2. Run this script using Ansible on all the hosts

```
172.31.32.100:~$ cat /tmp.1.txt
This text has been added by custom script
```

```
172.31.32.100:~$ cat /tmp.1.txt
This text has been added by custom script
```
