

Assignment 2

1. Add 2 nodes to Jenkins master
2. Create 2 jobs with the following jobs:
 - a. Push to test
 - b. Push to prod
3. Once a push is made to test branch, copy Git files to test server
4. Once a push is made to master branch, copy Git files to prod server

sudo apt update

sudo apt install openjdk-11-jdk -y

java -version

1

cd jenkins/

1

cd workspace/

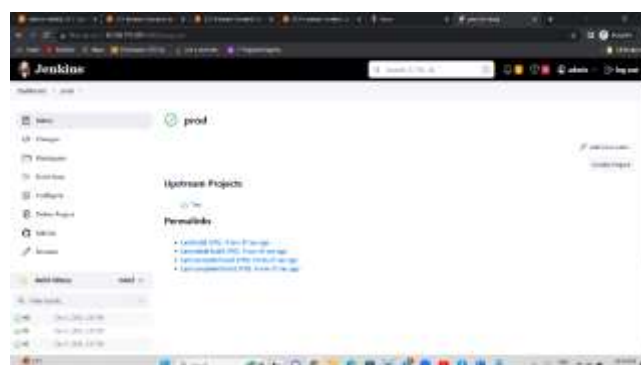

1

cd Job2/

1

cat demo.txt
